1. We operate with complete focus to maximize customer satisfaction.
2. Develop and encourage an environment of mutual respect within company and extending it beyond to clients.
3. Encourage commitment and personal learning of workforce.
4. Constantly and consistently deliver products and services of highest quality.
5. Keep pace with change and continuously strive for innovation while keeping in step with modern technology and methodology.
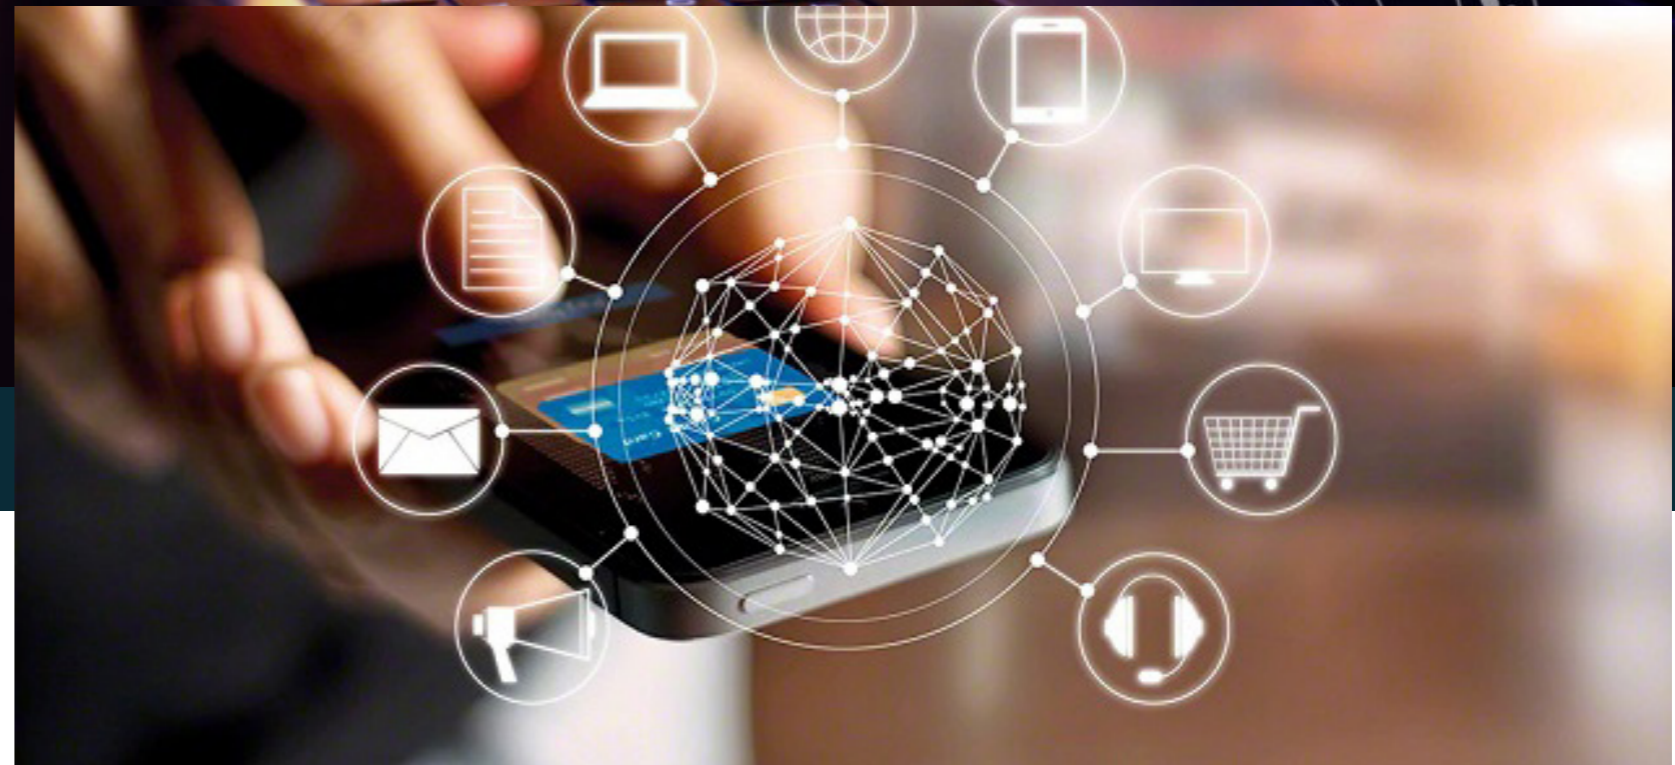

We are proud to have built our organization on the strong pillars of integrity, honesty, and self-respect.

OUR TEAM

With a rare mix of domain, technology & project management experts, we bring the most complete team to bear on every project we take on. Our business & technology experts, bring invaluable insights and expertise into their areas of expertise.

ABOUT OUR
COMPANY

In today's fast moving markets, companies no longer just want a vendor who responds to requests at a minimal cost - they need an innovative partner that can quickly turn ideas and projects into value-generators with minimal cash burn, and that's what we do.

We are a single provider for managing and securing mission-critical IT services. We range from providing managed services to software solutions and applications for your business.

ZUERON is considered one of the leading providers of technology, systems integration, professional services, consulting and outsourcing.

Whether your business or company is at the start-up stage, or it is a small scale business, even if it is a large scale, we know that your ultimate goal is to grow your business beyond its current level. ZUERON will listen to you and help you achieve this feat without causing you any unnecessary loss or business disruption.

VISION &
MISSION

"We grow through creativity, simplicity and trust. We integrate honesty, integrity and business ethics into all aspects of our business functions."

ZUERON'S strength lies in perceiving the client's business processes, culture, vision and goals across the industry segments and offering client oriented solutions, which are highly reliable.

Our client cuts across different sectors of the economy. At ZUERON our priority is to provide for our valued clients access to leading edge technology, which is affordable without compromising on quality.

Our Vision

To build upon a reputation of being one of the most innovative IT Solution and Service provider. We believe in doing our work in the most efficient way with robust and structured methodology, with gradual evolution from hard-work to smart- work culture, at client's end also.

Our Mission

To deliver superior products and services that continuously meets or exceeds customer expectation through exceptional customer care and innovative technology and professional services solutions.

FOCUS &
GOALS

Our approach focuses on new way of business, thereby combining IT innovations and adoption while leveraging an organization's current assets.

QUALITY

Our main emphasis is to deliver best quality in every project we undertake. With our time tested business methodology, and structured solution building approach, we ensure to maintain our global business standards.

TECHNOLOGY

Technology leadership is the most successful strategy to challenge competitors and consolidate our position since business and technology work hand in hand.

INNOVATION

In our each project, we emphasize on innovation. Our structured team works with a methodology and knowledge to innovate and deliver excellent services.

WEB APPLICATIONS

We have skills for a 360° development by offering you with experttse from HTML/CSS to React JS, SQL to Mongo DB and PHP to Node JS. We do Backend, Frontend, APIs, and Server Applicatons, Web designing, Web development, dev-ops and Maintenance of your servers and applicatons.

SOFTWARE
DEVELOPMENT

ZUERON has developed a number of products and MIS applications for its clients in this service. Our mature software development processes, combined with excellent infrastructure have significantly increased the "on-time and on-budget" delivery of software in the offshore mode. Our services begin from analysis, moving through designing, development, testing and implementation to maintenance.

Our mature software development processes, combined with excellent infrastructure have significantly increased the "on-time and on-budget" delivery of software Our applications come in all sizes, be it a one-table database, or a massive client-server application.

If you need help with a special project involving your IT Environment, we're eager to assist you.

Our expert team of solution architects and engineers are ready to provide advisory and managerial services that will meet any of your short, or long-term IT objectives.

SYSTEMS APPLICATION

Our seasoned architects help our clients evaluate options to bring their projects to life. The best digital experience requires a robust back-end foundaton. Our team has years of experience integrating with back-end and middle ware systems and can evaluate alternatives based on cost, time to market, implementation risk, performance, scaling, and security considerations.

MOBILE APPLICATION

We have the proficiency to meet the needs of most industries efficiently in a timely manner by offering native & hybrid android app and IOS app development solutions for all industries. If you have an awesome idea, feel free to contact us and if you do not, reach out to us anyway to build an idea.

Consulting & Professional
SERVICES

Like the vast majority of our customers, IT is probably not your core business. Trying to solve all of your IT challenges internally can become a major distraction, and other aspects of your business can suffer. More often than not these challenges end up costing way in excess of your initial expectations.

If you need help with a special project involving your IT Environment, we're eager to assist you. Our expert team of solution architects and engineers are ready to provide advisory and managerial services that will meet any of your short, or long-term IT objectives.

"We pay full attention to customers, doesn't matter the scope of work brought to us or the size and budget of the company, ZUERON is their to provide the best & innovative solutions to your problem"

MANAGED SUPPORT

Our first-class managed support services are aimed at helping small, medium and large organizations cope with day-to-day ICT activities within the organization in order to save money, time, and effectively manage their ICT resources and investment.

IN HOUSE SUPPORT

We provide in-house resident support to your staff (end-users) and installations, in which our personnel reside with the premises 24/7 to manage all equipment and services.
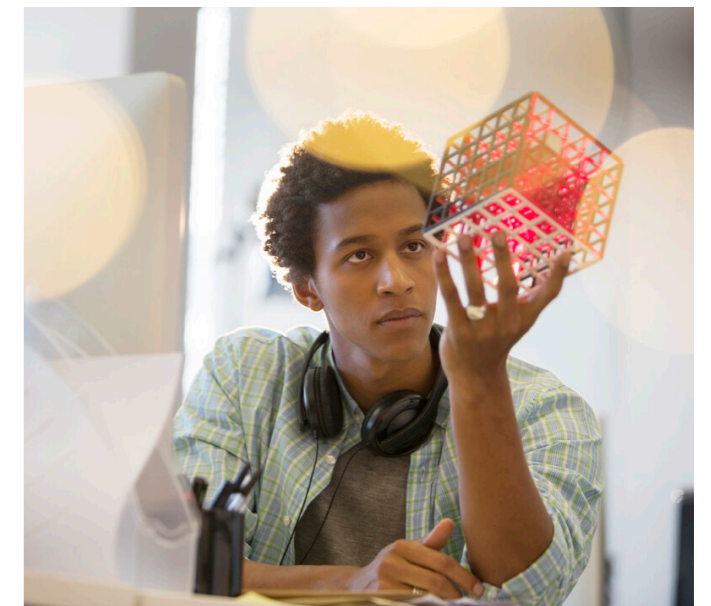

REMOTE SUPPORT

For the remote support, we manage the equipment and installations from our office remotely, our personnel will not have to be physically present in your premises, he can log on from a remote location to render the service.

ON CALL SUPPORT

We also offer on call basis which pay as you call support services. This occurs when the client will have to call the office support center for help and we send one of our engineers to solve the problem.

BLOCKCHAIN
DEVELOPMENT

Zueron R&D department develops solutions based on blockchain technology. Creating unique projects for various areas, from fintech to manufacture companies. Blockchain is a distributed ledger technology that enables digital assets to be transacted and traded in real time. The record it keeps is permanent and irreversible.

Our credo is to keep moving no matter what difficulties are ahead. Our team is engaged in the new technologies passionately.
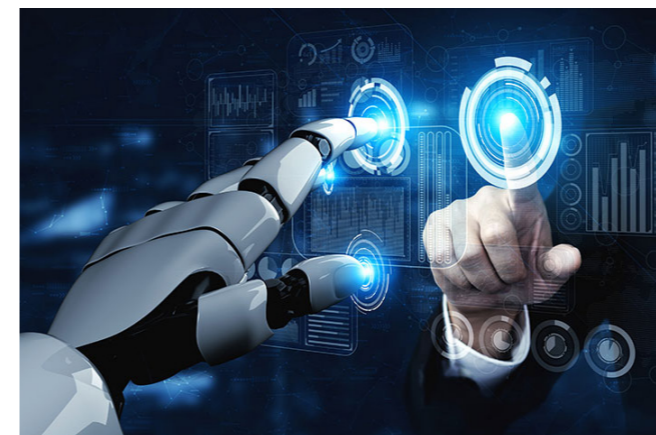

SECURE FILE TRANFER
Customer

Utilizes unique functionality available in its Alysides Blockchain to provide military grade secure file transfer capability. Superior security is complemented with the ability to handle extremely large files (+ 1TB).

SECURE PAYMENTS
Customer

Leverages smart contracts to provide digital escrow capablity to businesses and their customers to mitigate risk of non-performance and/or non-payment.

SECURE IP MANAGEMENT
Customer

Secure IP Management Provides a framework for individuals and businesses to register, update, buy/sell,license, transfer, manage and borrow against their digital assets safely and securely via the Blockchain.

SECURE COMMUNICATION
Customer

By bringing all parties across companies into a single platform to allow sharing of real-time information and automated intercompany reconciliation, blockchain can enhance corporate treasury functions.
